Summary

I learn new stuff every day to be on a top of .NET technologies and best practices. I have been working with .NET more than 3 years.

Learning new languages and technologies is what I am passionate about. I'm trying to follow in my project code style, best practices, use documentation and best experience of OOP programming: MVC, design patterns and etc..

By the way, I interesting in time-management and management overall.

Most my free time, I'm trying to release my ideas in real life.

I'm loving to be a team member. It's a great opportunity to share your experience and meet a great people.

And I'm trying to become a full stack developer and technical leader.
